9 ARTICLE 26. SALARY  
10

11 {Merit table from previous admin proposal deleted for clarity}

12  
13 **Section 1. January ~~2022~~ 2025 Across the Board Increase.** Eligible bargaining unit faculty  
14 members will receive a ~~5%~~ 9.4% ~~9.14%~~ 8.5% increase to base salary effective January 1, ~~2022~~  
15 2025. Eligible bargaining unit faculty members are those with an appointment as of October 31,  
16 ~~2021~~ 2024.  
17

18 **Section 2. January ~~2023~~ 2026 ~~Across the Board~~ Increases.** Eligible bargaining unit faculty  
19 members will receive a ~~2%~~ 4.4% ~~4.3%~~ 3.62% increase to base salary effective January 1, ~~2023~~  
20 2026. Eligible bargaining unit faculty members are those with an appointment as of October 31,  
21 ~~2022~~ 2025. In addition, the University will establish a pool of ~~2.5%~~ 2.44% of bargaining unit  
22 faculty salaries to address external equity issues, and a unit-based pool of ~~2.5%~~ 2.44% to  
23 address internal equity issues. Total pool amounts will be determined by the total base salary  
24 (prorated for FTE) for eligible faculty members in each group as of October 31, 2025. All  
25 equity-based salary increases will be effective January 1, 2026. Any funds from the equity  
26 pools that are not allocated as equity raises or for units/ranks for which there is no comparator  
27 data will be distributed as across-the-board raises of ~~2.5%~~ 2.44%.  
28

29 **a. External equity:** “External equity” issues refer to the pattern of differences between  
30 average salaries for units (by rank) at the University and average salaries for similar  
31 units/ranks at other public universities in the Association of American Universities. The  
32 Joint Committee on Equity (see Section 13) shall be responsible for constructing policies  
33 and procedures for guiding the distribution of monies in the external equity raise pool to  
34 address this pattern of differences according to the following principles: The goal of these  
35 raises is to increase by the most the average salaries of those faculty in units/ranks that  
36 are farthest from their AAU public comparators. If the pool is insufficient to raise all  
37 unit/rank averages to the external comparator levels, the Joint Committee shall prioritize  
38 increases for those units/ranks that are farthest from the comparators. Within units/ranks,  
39 raises shall prioritize those most underpaid in comparison to external comparators.  
40

41 **b. Internal equity:** “Internal equity” issues refer to a pattern of differences, including  
42 compression and inversion among salaries within units and time in rank. The Joint  
43 Committee on Equity (see Section 13) shall be responsible for constructing policies and  
44 procedures to guide the distribution of monies in the internal equity raise pool. In  
45 determining differences in pay, the Joint Committee will account for the University

1 Senate's study on service, situations of protected classes of faculty, and the Oregon Equal  
2 Pay Act. Processes shall include appropriate data analysis, contract and CV reviews, and  
3 interviews as necessary.  
4

5 **Section 3. January 2027 Merit Increases.** Eligible bargaining unit faculty members will receive  
6 a 3.4% increase to base salary effective January 1, 2027. Eligible bargaining unit faculty  
7 members are those with an appointment as of October 31, 2026. In addition to the meritorious  
8 salary increases associated with successful promotion, tenure, ~~and six-year post-tenure, and~~  
9 ~~eCareer continuous employment~~ reviews, the University will establish a unit-based pools of ~~3%~~  
10 ~~6%–5.78%~~ 5.10% for salary increases to be distributed solely as merit to bargaining unit faculty  
11 members in the Career and Tenure-Track and Tenured classifications ~~as follows~~. Total unit-  
12 based pool amounts will be determined based on the total base salary (prorated for FTE) for  
13 eligible faculty members in each group as of October 31, ~~preceding the increase date. 2023~~ 2026  
14 and increases will be effective January 1, ~~2024~~ 2027.  
15

16 **a. Eligibility:** To be eligible for merit, the faculty member must have an appointment on  
17 or before July 1, ~~preceding the increase date, 2023–2026~~. Merit reviews will be based on  
18 the work performed by the faculty member since the faculty member's last merit review  
19 or since the faculty member's start date, if the faculty member was hired during the last  
20 review period, and may take into account the length of service over the review period.  
21 Units may establish different ~~reviews period~~ review periods in their respective unit level  
22 policies.  
23

24 **b. Distribution:** ~~Merit distributions should be given as a percentage of base salary,~~  
25 ~~irrespective of FTE in any given review period, and not as a flat dollar amount, unless~~  
26 ~~the unit has Office of the Provost approval for the distribution.~~ Unit level merit policies  
27 must include criteria for determining whether faculty members exceed, meet, or do not  
28 meet expectations in teaching, service, and research, as applicable, and a methodology  
29 for determining when faculty meet expectations overall based on their ratings in those  
30 areas. ~~Merit determinations may not be grieved except for specific allegations of~~  
31 ~~process error(s) or prohibited discrimination and retaliation that materially impacted a~~  
32 ~~determination. Neither the academic judgment and/or application of unit-level criteria of~~  
33 ~~a merit determination may be grieved. Among faculty who meet expectations for merit~~  
34 ~~raises, it is expected that there will be different levels of accomplishment in teaching,~~  
35 ~~scholarship and creative activities, and service that will correspond to different merit~~  
36 ~~ratings in those categories and overall.~~  
37

13 of the Provost will maintain a retention salary adjustment policy, posted on their website,  
14 describing the criteria and procedures to be used in making retention adjustments for  
15 bargaining unit faculty members. The Office of the Provost will notify the Union of any  
16 retention adjustments made to the salary of a bargaining unit faculty member ~~as well as any~~  
17 ~~cases where the Office of the Provost decided not to make a retention offer to a bargaining~~

44 without regard to the bargaining unit member's existing base salary.

45

10 faculty member's base salary will be increased in proportion to the workload increase.  
11

13 above and beyond their regular workload. If the University ends an overload or stipend  
14 payment and a workload adjustment has not been made to account for the change, the  
15 bargaining unit faculty member will no longer be expected to complete the assignment  
16 which generated the overload or stipend.

29 pay option.  
30

31 **Section 14. Joint Committee on Equity.** The Union and the University agree to form a Joint  
32 Committee on Equity (Joint Committee) charged with creating policies and procedures for  
33 guiding the distribution of equity pool money.

37 policies and procedures for guiding the distribution of the monies in the equity pools for

39 external equity raises and then, using the resulting salaries as the baseline, calculate  
40 internal equity raises.
- 41 c. **Publication.** The policies established by the Joint Committee will be published on the  
42 Academic Affairs website and provided by email to the Union.
- 43 d. **Service Credit for Members.** Whether by the Union or the University, any appointment

- 1 obligations with respect to workload planning and any review of faculty activity  
2 including but not limited to merit raises, promotion and tenure reviews, and post-tenure  
3 or post-promotion reviews.
- 4 e. **Deadline.** The work of the Joint Committee shall be completed October 31, 2025.  
5 Should the Joint Committee fail to complete either the external or internal equity  
6 adjustments by this date, the monies shall be distributed as across-the-board raises.
